Color of Light Workshop

About Lee Boynton

Lee Boynton is a painter of light. His passion for painting light was first ignited while studying with Impressionist master Henry Hensche at the Cape Cod School of Art in Provincetown, MA in the 1980s. Under Henry's exacting instruction, he learned to use a palette of colors that corresponds to the natural spectrum of light, which he feels increases the artist's ability to depict the subtle nuances of the changing light effects in nature.

Boynton is as gifted in his ability to teach as he is in his ability to paint. He is able to explain complicated concepts in understandable terms and is fully dedicated to having each of his students succeed. His workshops are both challenging and fun. A special camaraderie forms among the students as they share their triumphs and experience the thrill of seeing and painting the light.

Boynton is founder of the Mid-Atlantic Plein Air Painters Association (www.MAPAPA.org) and has served as the president for the past four years. His plein air oil and watercolor paintings have received top awards in Plein Air Easton in Easton, MD, The Wayne Plein Air Arts Festival in Wayne, PA and Paint Annapolis in Annapolis, MD. He is co-author of *Painting the Impressionist Watercolor* and has been featured in many articles in *The American Artist Magazine* and *The American Artist Watercolor Magazine*. He is one of the 2009 recipients of the Annie Award in recognition of his contributions in the field of the visual arts in Annapolis and the surrounding area.
